### Subject: Reference Letter For V-KOOL's Solar Control Window Films

We were a customer of V-KOOL's and had the solar control window films installed in our building since the Summer of the year 1999. The cooling effect was remarkable as it became much more comfortable to stay the building during the days.

The solar heat gain to the building has been minimized. Currently, we are enjoying the benefit of energy savings on the cooling load and the daylight without heat.

If you need further information or my other comments, please contact me at the above number.

Sincerely,

  
Ivan So
